- |                 |   |              |
|-----------------|---|--------------|
| 08/08 - Present | <b>Wayne State University</b><br>Systems Software Engineer - Lead   | Detroit, MI  |
|                 | <ul style="list-style-type: none"><li>• Lead system administrator in support of over 150 linux servers.</li><li>• Primary responsibility for installation, configuration, and upkeep of 100 linux servers as well as provide on-call 24x7 support for mission critical systems.</li><li>• Extensive working experience with VMware ESX cluster running on 32 blade servers containing 200+ virtual machines including SRM.</li><li>• Major projects:<ul style="list-style-type: none"><li>• Oversaw complete data centre shut down and power up for electrical work.</li><li>• Project lead on implementation of Red Hat Satellite software to automate system loads/software updates, deploy/verify config file versions, and overall system management.</li><li>• Worked with the Information Security department to author and implement local firewall rules as part of a multi-layered approach to security.</li><li>• Virtualized Single-Sign On server from building the virtual machine to working with developer to configure OS to system performance tuning to set the appropriate memory and disk values.</li></ul></li></ul> |              |
| 07/04 - Present | <b>Shutter.net</b><br>Information Systems Lead  | Commerce, MI |
|                 | <ul style="list-style-type: none"><li>• Primary oversight of servers for small ISP. Maintain primary and redundant Linux systems providing DNS, SMTP, and WWW traffic</li><li>• Projects:<ul style="list-style-type: none"><li>• Currently working to virtualize infrastructure servers onto standardized OS platform.</li><li>• Modernized and upgraded infrastructure systems.</li></ul></li></ul>  |              |
| 11/02 - 08/08   | <b>Skorous Consulting Services</b><br>President   | Clawson, MI  |
|                 | <ul style="list-style-type: none"><li>• Consulted with small to medium businesses as subject matter expert for local support staff or in place of local staff. Provided technical support ranging from technical project management, server installations/updates, network infrastructure update/installation/troubleshooting, and desktop support.</li><li>• Significant projects:<ul style="list-style-type: none"><li>• Setup and installed email server with web-interface and web server for small medical firm of approximately 200 users.</li><li>• Implemented Samba file server for small real estate title company of approximately 75 users with automated backup onto multiple redundant off-site storage</li><li>• Replaced failed email server providing spam and virus scanning for approximately 400 users at local ISP</li></ul></li></ul>   |              |
| 04/00 - 07/02   | <b>Oak Park School District</b><br>Lead Technical Specialist  | Oak Park, MI |
|                 | <ul style="list-style-type: none"><li>• Provided service and support for ten (10) Netware servers, two (2) Windows NT, and ten (10) Linux servers.</li><li>• Oversaw work of two other technicians and several student assistants.</li><li>• Provided technical leadership on all computer related activities and projects.</li><li>• Projects:<ul style="list-style-type: none"><li>• Converted district to dynamically addressed IP scheme via multiple redundant DHCP servers to resolve addressing related overhead and troubleshooting.</li></ul></li></ul>  |              |

- In-sourced email and web hosting services onto local servers. Bringing email in-house allowed the district to specify and enforce acceptable use standards as well as spam/virus-checking while web-hosting allowed teachers/administrators to use web technology via SMB shares they already understood.

## Education

---

1990-1993      **Oakland University**      Rochester, MI  
Studied Computer Science

## Training and Certifications

---

February 2013      **VMware vSphere: Install, Configure, Manage**      Ann Arbor, MI  
December 2011      **RHCE Rapid Track Course**      Livonia, MI
